

Orient Consultancy is India based IT solution provider. The Company has highly experienced Professionals dedicated to provide total IT solutions under one roof. It possesses not only the latest technology gadgets but also the most knowledgeable and experienced hands to offer most user friendly customized solutions.

Orient Consultancy provides high quality on site services for software development, Web based application development on a broad range of hardware & software platforms and latest technologies & BPO Services.

At Orient Consultancy we believe in teamwork. With every new day the quest for acquiring new competencies continues. Forever searching, experimenting, innovating, learning, moving ahead with our sincere efforts and dedication, shaping the future, and challenging our competencies to create new opportunities, is a never-ending process in the company

### **Our Guidelines for Excellence in Services**

- Skilled force ensures a product with international standard.
- Focus on successful and robust executable application.
- In depth analysis to understand the actual requirement and business constraint.
- Stress for generating new ideas during analysis which will enhance your business.
- Quality is a way of our life, not an afterthought.
- Catch the major risks early and continuously and search for their remedy or alternate solution.
- A future vision before developing an application assists in extensibility of application, less and easy maintenance.
- Be in touch with you during whole life cycle of project. This makes the things transparent that we are doing work on common tasks or requirements.
- Standard design patterns (object oriented) are adopted to make the reusability of the things.
- Work with some of the most successful and expertise individuals, entrepreneurs and corporations and bring solutions to their most challenging and complex issues of the day.
- We believe in listening, analyzing, advising, and implementing new projects and concepts to effectively present complex information.
